

Current Rates as of July 7, 2006

The Rate Summary chart is a comparison of posted electricity and natural gas energy charges for residential and other small consumers across Alberta. This chart only summarizes electric and natural gas energy charges and does not itemize billing and delivery costs. For details on other rates found on your bill, please contact your energy company directly.

Regulated service is specific to location, meaning a consumer in one service area cannot access a regulated rate from another service area. Please consider this when reviewing this summary.

[Historic Rate summaries are also available](#)
